

## LOS ANGELES TO PHOENIX BIGGER RACE THAN EVER

Return of District Attorney Bullard  
From the Coast.

District Attorney Bullard returned yesterday from San Francisco, where he went a couple of weeks ago on business connected with the Amalgamated Mining and Oil company and the Murchie Mining company. His object in going to San Francisco was to secure the appointment of a receiver for the Murchie company, of which the Amalgamated is the nearest stockholder. The receivership was not secured, but a compromise was effected by which the property is to be sold under the direction of a trustee of the Amalgamated. That is, there was an agreement for a compromise which will be consummated later.

Mr. Bullard received word from New York to remain in San Francisco until the matter could be disposed of, but he was obliged to return at this time on account of two important cases which are pending. One is the Wickensburg election contest and the other is the action of E. S. Dunley against the county. When these cases are out of the way, Mr. Bullard will return to San Francisco.

On the way home, Mr. Bullard stopped at Los Angeles and saw John Mitchell of the Hollenbeck hotel in relation to the Los Angeles to Phoenix auto race. He says that a great many more cars will be entered in the race this fall than were in the contest last year or the race before. Mr. Bullard will see Mr. Mitchell and others at Los Angeles in regard to the race about July 12, when arrangements for the contest will begin to take shape.

READING A WOMAN'S MIND.  
There Are Surprises in Store for Munsterberg If He Really Can Do It.

Hugo Munsterberg makes the claim that by some psychological method he can read a woman's mind. This is indeed wonderful. The male part of the population will have to be shown before giving credence to this remarkable claim, and the more important part of the population will scoff at the great discoverer's conceit. This accomplishment of Mr. Munsterberg would be more prodigious than the invention of wireless telegraphy or the unveiling story in hats.

Mr. Munsterberg proposes to read something which since the harvesting of the first apple has been illegible to the profoundest scholars and unintelligible to mere men. Reading the Rosetta stone, the hieroglyphs of Babylon and the clay tablets of Nineveh has been considered child's play in comparison with the achievement proclaimed by this savant.

If Mr. Munsterberg can really and truly read a woman's mind, what moments of ecstasy must be his! For most men even the vain attempt to read her eyes gives thrills, but what joy can compare with the reading of a mind which so many childish philosophers have considered blank. Think of the delight of reading inmost thoughts all tangled and festooned with ribbons, lace, mock flowers, willow plumes, allegories and other dainty mysteries! Think of the marvel of penetrating to a woman's honest thoughts about her best friends, tales in hats, her style in dress and the neighboring children!

And think of obtruding a profane glance into a young lady's thoughts of fairy princes, rich bachelors, gasoline chariots, starlight rides through whispering woods peopled with elfins and the magic progeny of Oberon and Titania, of airship elopements to a realm where lilies of the valley and orange blossoms grow as weeds, where pools of ice cream soda cool the glorious landscape, where luscious caramels and bonbons may be plucked from every blossom freighted twig, and where cooing doves are as plentiful as sparrows!—Washington Star.

WOULD TRY SIMPLE LIFE.  
"Say, Uncle Hiram," queried the city nephew, "if you should give you half a million dollars, what would you do?"

"Well," replied the old man, "the first thing I'd do after getting the money would be to sell the farm and retire to the city and lead a quiet life, by grass!"

Dr. Foss removed to corner Third avenue and West Adams st. Phone Main 444.

## FOR EXCHANGE

for city property, a close in 20 acres with 15 acres in alfalfa, a good new house, good well, lots of fruit trees and no better soil can be found. Alfalfa has baled 45 tons on two cuttings. Class A water.

Greene & Griffin

Real Estate & Investment Co.

## WHAT WOMEN ARE DOING.

Mrs. Mary D. Bradford has been elected superintendent of schools for Kenosha, Wis. For some time Mrs. Bradford has been in charge of the Teachers' Training College of the State Normal school at Whitewater. Mrs. Catherine Van Voorhis of Rochester is said to have made the largest flag that ever floated over the capitol at Washington. She attended the suffrage convention recently held in Washington, and in spite of her eighty years, took part in all the proceedings. President Taft is reported to have received her with especial distinction.

Miss Eva Canfield is said to be the only ferrywoman in the Northwestern States. A license to operate a toll ferry on Salmon river has just been granted to her.

Miss Kate Gordon of New Orleans was unanimously chosen to take the place of Mrs. Carrie Chapman Catt on the program at the last biennial meeting of the general federation of clubs. Miss Gordon spoke on woman suffrage, the subject on which Mrs. Catt had been invited to speak. Mrs. Lauretta L. Blankenburg of Philadelphia spoke for limited suffrage, and Miss Alice Hill Chittenden of Brooklyn against woman suffrage.

Mrs. G. Howland Shaw has been elected president of the Massachusetts Association Opposed to the Further Extension of Suffrage to Women. Mrs. J. Randolph Coolidge and Miss Anna L. Daves are among the newly elected vice-presidents. Mrs. James M. Coleman is treasurer, Miss Elizabeth Johnson recording secretary and Mrs. Charles J. Strong corresponding secretary.

The association did not report a single new member. Mrs. E. D. Bacon has been unanimously chosen by the court of common council to fill the unexpired term of the late Mrs. Sunderland as a member of the board of school visitors in Hartford, Conn. Mrs. Bacon is the president of the Connecticut Woman Suffrage association and recently delivered an equal suffrage speech before the political study club of her State.

Miss Josephine Lowe of Washington has presented to the botanical department of the University of Pennsylvania 60 specimens of moss. They will be made the nucleus of a large collection of mosses representing every part of the country. In the collection presented by Miss Lowe were rare specimens from Ireland, Canada, Japan and England.

Miss Mabel Nutting of the school of household arts in Teachers' college arranged the exhibit of invalids' work which was recently held at Teachers' college in connection with the convention of the American society of superintendents of training schools of nurses. These articles were made by weak minded people, one handed people, paralytic people and even invalids of the kindergarten age. The handicraft shop of Marblehead, Mass., where the nervously broken down go to seek restoration by quiet work under medical guidance, was among the institutions exhibiting. Others were the hospitals and insane asylums of Illinois and various New York State hospitals. Along with these exhibits were articles from the board of health telling how such good had been done by instructing manual labor into the city institutions for the insane and for incurable invalids. Miss Susan G. Tracy, head nurse in the asylum at Jamaica Plain, Mass., delivered an address on the subject.

MESSAGE OF PLAY CONGRESS.  
American Association Will Attempt to Revive the Art of Story Telling.

The art of story telling was highly esteemed in the remote period when the tales of "The Thousand and One Nights" saved hundreds of innocent lives by so entrancing a cruel despot as to make him forget his wrath, and it was still in good repute when Sir Philip Sidney wrote in his "Defense of Poesy": "He connecteth unto you with a tale which holdeth children from play." In a utilitarian age this art has fallen into neglect, but some inspired persons who have discovered that humanity needs tales as of yore are trying to revive it. The subject is to get a lot of attention at the congress of the Playground association of America, to be held July 2 to 11 in Rochester, and those who attend will have an opportunity to hear Seumas MacManus of Donegal, Ireland, tell some of the tales with which he is wont to delight the hearts of the little folk.

The object of the members of the Playground association in encouraging story telling is not, however, to hold the children from play. They think that children really can't have too much play—at least, they are in no danger of getting it—and that they need tales and play.

Nor will the attention of the congress be confined to children. Grown people are sadly in need of play, too, the association thinks, and so social centers will come in for much discussion. This means a wider use of school buildings and their use by adults as well as by children. Most of the school houses are being used only a few hours a day five days in the week, ten months of the year; they stand idle two-thirds of the year.—New York Tribune.

WOULD GET IT BACK.  
The Doctor's Wife—Two dollars and a half for ten blocks! Gracious! This taxi-cab company knows how to charge. The Doctor—That's all right, my dear. The president of the company is a patient of mine.

## AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. Emma Lase, 835 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

## FIRE DEPARTMENT TO DISCUSS BISBEE RACE

Meeting Is Called to Decide Whether Team Can Be Sent.

For the purpose of devising means to have Phoenix represented at the Fourth of July horse races in Bisbee, a meeting of the local fire department will be called for Wednesday evening of this week. An invitation has been received by the local department asking that a team be sent and extending good wishes for the welfare of the Phoenix fire fighters.

It is the sentiment of those members of the local department who have taken an active part in events of this kind in other years, that it would be no more than right that Phoenix send such a team. Phoenix now holds the championship cup for horse racing in Arizona and can make her presence felt if a team is sent to Bisbee. The neighboring town has always taken an interest in events of this character held in Phoenix, and the local fire ladders feel that common courtesy requires that a return visit be made.

In the event that the necessary funds can be made available for such a trip a team will go into training immediately and with the help of some of the best material in the valley there is no doubt but that Phoenix will win additional honors.

The letter inviting the local team to go to Bisbee follows: Bisbee, Arizona, June 8, 1910. Mr. J. M. Short.

See? Phoenix Fire Dept. In answer to your letters of recent dates, I wish to inform you that we have at last decided to give a horse race here the Fourth of July. We would be very glad to have your team come down here with us. We send them an invitation to be with us. Also come yourself if possible. We will endeavor to treat Phoenix just as good as we can because they treated us so fine when we were there in November.

You have them come and we will show all a good time. I have sent invitations to all other towns in the territory, and we are preparing for a good time.

Inclosed find the rules and regulations of our race. Of course there will be a few changes if all the captains of teams that are here want them.

The first prize will be \$350, second prize \$150. Awaiting an early reply and hoping your team will come and spend the Fourth with us. I remain, yours truly.

FRANCIS THOMAS, Sec'y, Bisbee Fire Department.

WANTED TO KNOW.  
Mr. Hynson—I've resigned my position. Mrs. Hynson (cynically)—Before or after? Mr. Hynson—Before or after what? Mrs. Hynson—You were fired.

## TWO COWBOYS BITTEN BY HYDROPHOBIA FOX

The Cow Camp Was Thrown Into Confusion.

Frank Waldrup and Dave Kenier were bitten by a hydrophobia fox that invaded their round-up camp near Rock Top mountain, about thirty miles south of Flagstaff last Sunday night, says the Coconino Sun.

They came into Flagstaff last Tuesday and left that evening for Pasture treatment in Los Angeles. Waldrup and Kenier were sleeping on the ground when the fox attacked them. Waldrup was bitten on the forehead and Kenier on the right wrist. There was a grand scattering of cowpunchers until Waldrup succeeded in killing the rabid animal with his sixshooter.

Both bitten punchers rode the following day, but concluded on the second day to take no chances but to secure treatment immediately.

HANK GOT 'HISTED.

Henry Cliff, a young man who has unbound broncos and headed in the festive story for years, was accidentally unpacked from a horse Tuesday morning and fell, breaking the bones of his hand. The horse became annoyed at a passing train. Hank slapped him on the neck with his hand. The horse commenced and Hank reached for the ground and caught it too quick with his left hand. This is the first time a horse has ever handled him anything and he is very much broken up in the hand about it.—Coconino Sun.

A FIXTURE.

"That's a beautiful girl you have in your store," said the man gazing at her. "I've seen her in the window several days as I passed." "She isn't an employee," the milliner answered wearily. "She's a woman trying to decide on a new hat."—Buffalo Express.

A MERE SUGGESTION.

Mrs. Goodwin—I wish to select a birthday present for my husband and I can't think of anything. He doesn't smoke or drink nor go out nights nor play cards. The Salesperson—Is he fond of fancy work?

PRACTICALLY NOISELESS.  
Marion—Does that noisy Reggy Feather still come to see you? Myrtle—Yes, he still comes, but he hasn't made a noise like a proposal yet.

THE REASON.  
She—That batter doesn't seem afraid of the swiftest kind of balls. He—No, he's married and he's been dodging crockery for 10 years.

Phone Main 16 to have that trunk.

## FOR SALE

4-room house; best of shade; city water; large lot. Terms. Price \$900. 2-room house, with screen porch; some shade; city water; lot 50x 127 1-2. \$150 down.
